EDUCATION

McMaster University

Expected Apr. 2028

Honours Bachelor of Applied Science, Computer Science (Co-op)

- **Awards:** Faculty of Engineering Award of Excellence (Top 10%), McMaster Entrance Bursary

EXPERIENCE

Ressam Gardens (ressamgardens.ca) | Web Developer

Hamilton, ON | Jun. 2026 – Present

- Designed and built a 10-page site for a memory care community, shipped through 15 rounds of client review
- Run weekly client meetings, translating non-technical feedback into scoped build plans and verifying each release across mobile, tablet, and desktop
- Wrote verification scripts that enforce byte-identical navigation and footers across every page, catching regressions before they reach the client

Mount Hamilton United SC | Administration Assistant

Hamilton, ON | May 2026 – Aug. 2026

- Automated league schedule entry with a Playwright and TypeScript driver against the club's registration platform, entering and auditing 400+ events previously booked by hand
- Built an inventory tracking system, with a transaction log and formula based views that keep per-colour and per-size stock current as gear goes out and comes back
- Built a Power Automate flow that files volunteer document scans into SharePoint and updates a compliance tracker without manual entry
- Ran recurring compliance campaigns for 50+ coaches and 75+ volunteers using scripted mail merges with per-recipient conditional attachments

Canadian Motorcycle Tourism Association | Software Developer

Remote | Mar. 2026 – Apr. 2026

- Built an event promotion automation tool in React, Vite, and TypeScript, deployed on Vercel, replacing a manual cross-platform social posting workflow
- Integrated the Google Gemini API for structured event extraction from posters and platform-specific caption generation
- Wrote a serverless proxy to work around CORS on the OnlySocial publishing API

Morphace Skincare | Software Developer

Remote | Feb. 2026 – Apr. 2026

- Built FastAPI and PostgreSQL endpoints for sensor data storage, calibration logic, and user-specific data retrieval
- Shipped the reminders feature end to end. Authored the technical proposal, chose the notification architecture, and built the working Swift implementation using iOS local notifications and on-device persistence
- Wrote pytest suites against the API endpoints to validate data flows ahead of feature releases

Bell Canada | Store Associate

Hamilton, ON | May 2025 – Dec. 2025

- Ranked top 5% in Ontario for percent-to-target sales across activations, bundles, and accessories
- Completed activations and renewals with zero non-compliant transactions

TECHNICAL PROJECTS

MacTrack (mac-track.com) | React, TypeScript, Go, PostgreSQL, Python

- Full-stack course planning and seat-tracking platform built with a team of four and used by over 200 McMaster students
- Go backend services for course monitoring and notification logic that suppresses redundant alerts, fed by a Python scraper
- Migrating the dashboard and degree planner into a single view using a strangler-fig pattern, and running Dependabot security sweeps across Go, Python, and frontend dependencies

Empty Classroom Viewer (mcmptyroom.vercel.app) | TypeScript, Node.js, Playwright, React

- Scrapes university timetable data with an automated Playwright script and transforms raw XML into room-centric availability JSON
- Normalized large timetable datasets into a queryable format supporting real-time filtering by building, day, and time
- Scheduled the scrape as a GitHub Actions cron job so room data refreshes without manual runs

SKILLS

- **Languages:** Python, TypeScript, Go, Java, Swift, JavaScript, SQL, HTML/CSS
- **Frameworks & Tools:** React, Tailwind, FastAPI, Vite, Playwright, pytest, Git, GitHub Actions
- **Databases & Services:** PostgreSQL, Supabase, Vercel
- **AI-Assisted Development:** Claude Code, Codex, Gemini API, agent-driven implementation, test generation, and workflow automation

LEADERSHIP & AWARDS

Event Lead, Brothers Socials | McMaster Muslim Students Association

McMaster University

- Ran 5+ campus events averaging 70+ attendees, owning venue booking, university approvals, and promotion
- Led planning meetings and coordinated volunteer teams through setup, run of show, and teardown

Youth Philanthropy Initiative Award: delivered a presentation that secured a \$5,000 grant for community programs
